

Hello FCC, As an XM fan, the addition of the instant traffic and weather reports have been totally beneficial! I appreciate the coverage and the fact that I can tune in night or day and the report is right there! No waiting. (Hey, there's no telling what could happen inside the Beltway...) What a great service. There's nothing like XM! I urge you to please consider, all of the content XM provides is broadcast nationwide.

Loyal Fan,
Lynette Carlock
